## About Our Company

Valley Equipment Services, LLC was founded in 2010 with one location, two technicians and two service trucks. The Company has grown into four fully-equipped locations and multiple roadside service trucks with cranes. Our certified technicians specialize in diesel engine repair of all sizes, truck and trailer repairs, and off road equipment repairs on equipment such as tracked carriers, large and small excavators, dozers, material handlers, and man lifts. We have technicians available 24 hours a day, 7 days a week to minimize your downtime, and four convenient service facilities available for major off-site repairs.
